

Therapy Suites at Rice Care

Service. Style. Comfort.

*Everything you're looking for in a short-stay
medical rehabilitation experience.*

Personal care in a beautiful, healing

Therapy Suites is a short-stay rehabilitation care facility with 23 private rooms. Connected to Rice Care Center, it presents a healing environment to people who are recovering from serious medical conditions that no longer require the acute care provided by hospitals.

Therapy Suites offers rehabilitation services in physical therapy, occupational therapy, and speech therapy, along with nursing care and other skilled services.

Medical and clinical rehabilitation professionals work together to help you through the recovery process at a pace that is right for you. They help you set and achieve the goals that will make it possible for you to successfully return to your highest level of independence.

A positive outcome for you is the best reason to choose Therapy Suites at Rice Care. Your satisfaction is top priority. Whether you are recovering from illness, injury, or surgery, the care you receive during short-term rehabilitation is designed to help you return to as healthy and active of a lifestyle as soon as possible within a realistic and therapeutic time frame.

The caring professionals at Therapy Suites can make your recovery more comfortable and manageable. The staff care about you as a person and learn what matters to you and your family. They are with you during every step of the journey. They take the time to get to know you, your support system, and your goals so that your needs are met expertly and successfully.

Personal service and a “get to know you” standard sets us apart. The recovery process isn’t about charts and graphs, it’s about you achieving your goals.

By understanding what you need for a successful recovery, providing you with the necessary resources, and surrounding you with the best staff and therapeutic environment available, we have created a care facility where people love to work and patients come to heal.

environment

Experience the suite life.

Experience expert therapy

Physical, speech, and occupational therapy services are offered according to your individual needs so that you can achieve and maintain your highest level of independence.

Your therapists learn what is important to you and work together, along with you, to ensure continuity of care so that you can achieve your goals.

The therapy environment includes indoor equipment and surfaces, as well as a variety of outdoor

grades and surfaces to best prepare you for many of the challenges that you'll find when you return home.

... *in an award winning environment.*

Therapy Suites at Rice Care was selected as a winner of the *Environments for Aging* 2012 Citation of Merit. Chosen from a field of assisted living, skilled care, fitness center and rehabilitation design projects,

this award honors the top four exemplary environments for aging in the nation.

The Minneapolis design firm of Horty Elving helped Rice create an environment where style and function work together to create a space that meets the rehabilitation needs of patients, yet helps their short-term stay in a skilled nursing facility feel more like a luxury hotel.

Read about the many reasons why Therapy Suites was selected for this prestigious award in the March 2012 issue of *Environments for Aging*.

Here's what past patients say

I was admitted to Therapy Suites after having a complicated surgery. The ambiance was marvelous—absolutely beautiful! I thought I had entered a 4-star hotel. My room was spacious and comfortable. It was so nice to have my own bathroom and shower. The staff was fantastic—they match the 4-star rating. —Kaye

The therapy program changed my life. I have not walked this well in over twenty years. I am now able to walk without a limp and without my cane. The therapists were excellent. And everyone called me by name from day one. —Richard

The atmosphere was wonderful. They had comfort in mind when they designed Therapy Suites. The people who work at Therapy Suites are excellent. They are enthusiastic, pleasant and always have smiles. —Alix

My experience was a very positive one and I'm telling everyone. The nursing and therapy staff are very kind and compassionate. They helped me get my strength back and I was able to return home. —Gayle

The hospitality provided to me and my visitors was exceptional. They went above and beyond to make sure my stay was comfortable, productive and enjoyable. The therapy I received was outstanding. The therapists cared about me as a person and set goals that enabled me to get stronger and return home. —Pam
